

FRESHDIRTT

CONSTRUCTION | WOODRIDGE, ILLINOIS

ISSUE #429

ABOUT THE PROJECT

"This is the last time we are doing this, we want to do it right." That was the mantra for the team at AMS Mechanical Systems as they embarked on building another new facility. An environment that would help retain and attract the best talent, but also grow with them as those new team members came on board. Want to shake up the space? DIRTT Power and Networks are ready to add extra ports and outlets quickly and cleanly. And imbedded technology is easy to swap out for upgrades over time.

DIRTT SOLUTIONS

- Doors (barn and pivot)
- Millwork
- Networks
- Power
- Walls (glass, glass clerestory, solid)

FINISHES

- Anodized aluminum
- Back painted glass
